Today's date: Tues May 19

My timeframe for these goals: Today This week This month

Before my next appointment

Physical Activity

I will spend at least 3 days doing the following physical activity for 30 minutes:
walking the dog or riding my biking or walking on the treadmill.

FUN

Regardless of how I feel, I will commit to scheduling 2 fun activities, including:
Going to a movie with my sister, going to the bookstore and buying a new book

Eating Right

I will make the following choices to improve my eating habits:
Add in decaf coffee, eat a serving of fruit as my afternoon snack, and try to drink two cups more of water each day.

Support from Others

I will spend at least 15 minutes on at least 3 days spending time with:
My sister, my dog, and my best friend.

Relaxation

I will spend at least 30 minutes on at least 3 days on the following relaxing activities:
Yoga class, yoga video, reading for pleasure, writing in my journal.

My Specific Goal

My goal is: try to drink 10 cups water/day

Step #1: when thirsty, have water first
Step #2: take my water bottle with me to class
Step #3: track how much water I drink per day

How likely are you to follow through with these activities during the timeframe you have set?

Not Likely	1	2	3	4	5	6	7	8	9	10	Very Likely
------------	---	---	---	---	---	---	---	---	---	----	-------------

What might get in the way of meeting the goals you have set for this timeframe? stress at work, busy schedule for myself and my kids.

Brainstorm possible ways to overcome these barriers: exercise early in the morning, before work. Plan my next day's meals the night before, and pack my lunch (after the kids go to bed); arrange to have my husband get the kids ready for bed so I can read/do yoga, etc.
