

Preparing for Your Appointment

This tool can help you organize your thoughts so that you can get the most out of each appointment with your therapist.

What did we discuss during our last appointment? Was there anything we left unresolved, or anything that bothered me about that session?

We talked about my job and my relationship with my boss, and about how it's going with my new medication.

How have I been feeling since my last appointment?

The meds seem to be making a difference- I seem to be able to cope better. But I do get kind of dizzy sometimes, and I'm having a little trouble sleeping.

What's been happening since my last appointment (both good and bad)?

My boss criticized me in front of the whole team I've started an exercise program

Is there anything I've been reluctant to talk about?

Do I have any "homework" to share?

My exercise log
